

*Imagine*  
**life without conflict.**  
*Enhance*  
**your life at work and home**

## Sound too good to be true?

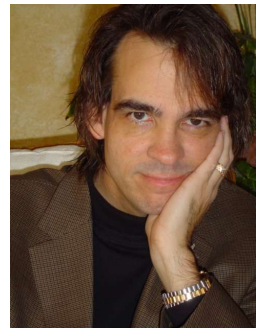

Dr. David Reid's seminars will teach you seven powerful strategies based on hypnotic principles that will help you and your employees learn how to manage conflict with difficult people whether they are your clients, customers, co-workers or relatives. Imagine a life where whining, annoying and demanding people won't get the best of you (not even your mother-in-law!).

### Dr. David Reid will teach you how to:

- Influence others not only with what you say, but what you don't say.
- Learn to neutralize a disagreeable person with four simple words.
- Minimize conflict without saying a word.
- Gain greater control in your life to reduce stress and tension.
- Improve your self-confidence and get what you desire whether it's a raise, a promotion, or more productivity and motivation from your workers.

Dr. David B. Reid is a Licensed Clinical Psychologist and founder of In The Zone Consulting, Inc. who is completing his book ***Give Peace a Trance: Seven Powerful Hypnotic Strategies for Dealing With Difficult People*** (Springer Publishing) planned for publication in 2008. Dr. Reid is a dynamic and engaging speaker who is not to be missed. Then again, Dr. Reid is just a hypnotherapist and this is only a "suggestion."
